

# Pavilion Canopy

The Pavilion is a conic shaped tensile structure with a square footprint fully wind rated and snow loaded to British Standards. Its variable corner columns leave an uninterrupted space underneath the canopy that can be used for many applications such as shaded playground shelters, entrance canopies, restaurant canopies, etc. The design also benefits from a vented head ring.

The table below will give you a full description of this canopy. Please also refer to our comprehensive canopy buyer's checklist to help you to specify the canopy that best suits your needs and make a fair comparison between different potential suppliers.

## Key Features

**Sizes:** 4mx4m, 5mx5m, 6mx6m, 9mx9m

**Can they be linked together:** Yes

**Canopy Material:** PVC polyester (highly coated), A range of 40 colours available, QA ISO 90001

**Frame Material:** Steel (CE mark)

**Frame Paint Specification:** Powder coated. RAL colours available

**Gutter:** Yes

**Wind Rating:** BS 6399 part 1, 2, 3 (50 year storm calculated by UK location)

**Snow Loading:** BS6399 part 1, 2, 3 (50 year storm calculated by UK location)

**Fire Rating:** M2 / B1 / BS 7837, B-s2,d0 (class 0 / A2 fabric available on request)

**Waterproof:** Yes

**Expected Design Life:** 20+ years

**Fabric Warranty:** 10 years (subject to colour)

**Foundations:** Simple structural reinforced concrete

**Installation:** 100m<sup>2</sup> per day average

**Accessories Available:** Branding, Post protector, Lighting, Heat, Waste bins  
Wall options – glass, fabric, polycarbonate

**Maintenance:** Virtually maintenance free. Simple annual clean and maintenance check
